# Religion Ancient ersia

IT ALL began with Zoroaster, more correctly called Zarathustra. He may have lived in the Sixth Century B. C. or he may have lived earlier. At first a priest of the Aryan faith. Iran's ancient polytheistic nature worship, he later emerged as self-proclaimed prophet of the god Ahura Mazda. His teachings. hymns, prayers and rituals are preserved in the Avesta the earliest known manuscript of which dates from the 13th Century A. D. -at least 19 centuries later. Scholars hesitate to

summarize Zarathustra's teachings but I propose to try. Ahura Mazda, the greatest of the gods, is eternally at war with (Continued on page 40)

soybran fields they'd like to bear about that too. Especially withing to hear are the three farmers whose fields were damaged last June in a manner that so far has defied explanation. Between June 20 and June 27,

1972, something bappened on the Donald Slaiken farm near Goldfield, Iows. Slaiken had checked his soybean field a day or so before June 20 and everything

was growing well. When he returned about a week later he ducovered a four foot-equare scorched depression right in the middle of the field. Thus depression was surrounded by yards of wilted pophean plants. Yet no track led to or sway from the

By Visian Buchan

Walter Jones, who lives about 130 feet from Slatkeu's damaged field, said that about 7:00 P.M. on the night of June 27 be saw something unlike anything he'd ever seen before.

"Something suddenly lit up the whole house," he recalled. "It weened to hit along the house and was so bright it seemed to the the page out of the book I dwas reaching. It was raining a slightly so I thought it was light ming. I was worried about my electric fenor but there weren't as my fuse blown."

Slasken notified Wright County Sheriff Robert Shaw, who came out to the farm to investigate. Shaw said, "The oddest part about the damaged area was the row of holes, in a straight line, that looked like someone had made them with a pape, Inside dust. The plants acoust booked as though they'd been sprayed. My first resection was that lightning had struck the field but for some resion the plants were not dead or burned even though they'd been souched for about 30 square yards around the depression. The ground was baked hard on top but a few incibes below the surface the soil was below the surface the soil was

Show sent samples of the dust and some of the scorobed plants

His declaration might have ended the mystery but another charter was added when Mervin Tely, who farms 900 acres near Story City, Iowa, discovered a strange depression in the exact center of his isolated stybens

Goldfield to look at the one reported by Slaskeu. He found the two depressions almost identical. Both were four feet souare, both were haked and both were covered with a allows film dust. The only difference was that a stand of beans

were unaffected on the south Both farmers aresime the damage occurred between June 20 and June 27. They rule out in or out of the fields which are

Teig said, "In my opinion the burned spot and large depression in my field were definitely not caused by lightning. I've been farming all my life and I've seen

Nehtning damage to Selds hefore. At first I thought a helicopter spraying fields might have had some problem and bad to set have caused the sprayed effect on those writted beans. But if that is what hannened the damage

Yo date no belicenter has reported making a forced landing A thred chapter was added to this mystery story when Jerry Deen who farms in Pocabontas

County near Laurenz, Iowa, about 80 miles from Story City. reported two similar depressions un his osybean field. He first day covered the mysderious damage to his saybean field on Sunday. July 9, and reported it to his wife. Dean said one decreasion was about three feet in diameter of the scorched area in one field and the other about one-and-one half feet across, in the middle of and in the other field the brant his field. Both areas were scorched on top with the soil damp a few inches below the surface. The mysterious silver-

like dust covered both areas. Like Tenz and Stations, Dear hadn't visited his field for about thing had been in order. "We have no idea what caused this," Mrs. Dean said, "It's really strange. Several of our neighbors believe UFOs are the cause

of those deprendent. Pro-plumps non-director of APRO in Transcen-Bill Atkingon of Des Meines, the samples As an expert in

Iowa, a member of the Aerial fulgarities (the vitrified cross tion (APRO), was so intrinsed rock by lightman) Walker Acby the reports that be drove to the fields to see the depressions for himself. He theorizes. "The damage was coused by a nonsorbeans but these plants were con lightning cause the large surface area depressions described in the Iowa sovbean

renauts were made. This is why But no one should be alarmed by thus: It's been soing on for years But this time there is evidence that a craft landed and we have evidence (the sliver dust) that's going to tell us just what it was

It's a one-in-a-million find." And so Atkinson gathered samples of the dust and plants and sent them to James Loren-

An expert metallurgical and like dust had not been caused by hightman, He explained, "When hightrang strikes the ground. fused sand is always in evidence. But fused sand does not appear in the Iowa farm samples. Nor

# The Unpublished Facts of Life

THERE are some things that cannot be generally told - things you ought to know. Great truths are dangerous to some-but factors for personal power and accomplishment in the hands of those who understand them, Behind the tales of the miracles and mysteries of the ancients, lie centuries of their secret probing into nature's lawstheir amazing discoveries of the hidden processes of man's mind, and the mastery of life's problems. Once shrouded in mystery to avoid their destruction by mass fear and ignorance, these facts remain a useful heritage for the thousands of men and women who privately use them in their homes today.
